

LEVERAGING STRENGTHS FOR SHARED SUCCESS

INFORMATION SOLUTIONS FOR UTILITIES

SERVING YOUR COMMUNITY FROM THE CUSTOMER TO THE BOARD

Inflection Point Solutions recognizes that alliance relationships are crucial to our continued success and have made it a vital part of our business strategy.

Our alliance objective is to establish sound, equally beneficial, long-term relationships with industry-leading firms that result in added value to our respective clients. We believe that collaborating to deliver strategic solutions is the best way to meet ever-increasing client demands.

Our strong network of relationships with engineering, process, and software firms complements our core competencies and improves the delivery capabilities of our partners and ourselves. We want to continue to build relationships with leading organizations who offer complimentary solutions that make our customers - and yours - more successful.

An alliance with IPS provides your organization with the following benefits:

- a blend of national client experience and strong technology capabilities.
- cost savings achieved through joint marketing, promotion programs, and event sponsorships.
- support from experienced, industry-recognized, technology professionals.
- an awareness of industry issues through active involvement in associations and conferences.
- access to proven approaches and methodologies that complement your own.
- strengthened relationships with your valued clients.
- the ability to balance and manage financial impacts to the client.
- the capability to mobilize and react quickly to execute engagements of any size.

We understand the realities of working with other firms and commit to a strict manner of confidentiality and professionalism.

We believe that great relationships start with one project. To learn more about alliance opportunities with Inflection Point Solutions, please contact:
